

# PAY DISPARITY ANALYSIS REPORT

Illinois Department of Human Services  
Rehabilitation Counselor Classification Series

Report Date: May 17, 2026 | Requestor Title: Rehabilitation Counselor Senior | Records Analyzed: 200 Unique Employees

Data Source: Illinois Comptroller Salary Database

## Executive Summary

Males earn more on average than females in **all three job title groups** within the Rehabilitation Counselor classification series. The pay gap is largest at the **Senior level (6.1%, or \$6,090/year)**. Despite the workforce being 83% female, males consistently cluster at the top of each pay band. Additionally, pay compression anomalies exist where employees in lower-classified positions earn salaries equal to or exceeding those of RC Seniors.

## Section 1: Pay Statistics by Job Title Group

| Metric                | RC Senior (Your Level) | RC Mid-Level (Lower) | RC Trainee (Lowest) |
|-----------------------|------------------------|----------------------|---------------------|
| Total employees       | 60                     | 84                   | 56                  |
| Male / Female count   | 13 M / 47 F            | 10 M / 74 F          | 11 M / 45 F         |
| Male % of group       | 21.7%                  | 11.9%                | 19.6%               |
| Overall avg pay/month | \$8,372                | \$6,412              | \$5,720             |
| Overall avg pay/year  | \$100,460              | \$76,943             | \$68,636            |
| Pay range/month       | \$6,200–\$9,600        | \$5,600–\$9,200      | \$5,000–\$7,800     |

## Section 2: Male vs. Female Pay Gap by Group

| Group                  | Male Avg/Year | Female Avg/Year | Gap/Year (Male Higher) | Gap % |
|------------------------|---------------|-----------------|------------------------|-------|
| RC Senior (your level) | \$105,231     | \$99,140        | +\$6,090               | +6.1% |
| RC Mid-Level (lower)   | \$78,240      | \$76,768        | +\$1,476               | +1.9% |
| RC Trainee (lowest)    | \$69,382      | \$68,453        | +\$929                 | +1.4% |
| All 3 groups combined  | \$85,694      | \$80,848        | +\$4,848               | +6.0% |

Males earn more in every classification tier. The gap widens at the Senior level — the highest classification in the series — where males earn an average of **\$508/month more** than female RC Seniors despite holding the same title.

## Section 3: Male Employees — Salary Rankings by Group

### 3A — Rehabilitation Counselor SENIOR (Your Peer Group) — 13 Males

| Rank | Name             | Pay/Month | Pay/Year  | Year |
|------|------------------|-----------|-----------|------|
| 1    | DELGADO, DOMINGO | \$9,600   | \$115,200 | 2026 |
| 1    | DOMERCANT, WILKY | \$9,600   | \$115,200 | 2026 |
| 3    | ABRAHAM, MATHEWS | \$9,200   | \$110,400 | 2026 |
| 3    | BASKE, JAMES     | \$9,200   | \$110,400 | 2026 |
| 3    | CHUNG, DANIEL    | \$9,200   | \$110,400 | 2026 |
| 3    | DIONNE, RANDY    | \$9,200   | \$110,400 | 2026 |
| 7    | CROWLEY, WILLIAM | \$9,100   | \$109,200 | 2026 |
| 8    | DEJONG, NATHAN   | \$8,800   | \$105,600 | 2024 |
| 9    | ANGULO, ROBERT   | \$8,600   | \$103,200 | 2026 |
| 9    | DONETS, PAUL     | \$8,600   | \$103,200 | 2026 |
| 11   | CONKLIN, JOSHUA  | \$8,200   | \$98,400  | 2026 |
| 12   | COLEMAN, CHARLES | \$7,500   | \$90,000  | 2026 |
| 13   | DAVIS, MICHAEL   | \$7,200   | \$86,400  | 2026 |

Male avg: \$8,769/month (\$105,231/year) | Female avg: \$8,262/month (\$99,140/year) | Gap: +\$508/month (males higher)

### 3B — Rehabilitation Counselor MID-LEVEL (Lower Classification) — 10 Males

| Rank | Name               | Pay/Month | Pay/Year  | Year | Note      |
|------|--------------------|-----------|-----------|------|-----------|
| 1    | JONES, TERRANCE    | \$9,200   | \$110,400 | 2024 | ■ Outlier |
| 2    | MARKOS, TEDROS     | \$7,000   | \$84,000  | 2026 |           |
| 3    | ROSALES, JUAN      | \$6,800   | \$81,600  | 2026 |           |
| 4    | TAYLOR, GIBRALTAR  | \$6,700   | \$80,400  | 2026 |           |
| 5    | GOUARD, TYWON      | \$6,500   | \$78,000  | 2026 |           |
| 6    | EDWARDS, JASON     | \$5,900   | \$70,800  | 2024 |           |
| 6    | MEDINA, JOEL       | \$5,900   | \$70,800  | 2026 |           |
| 8    | HAVEN, GRAHAM      | \$5,800   | \$69,600  | 2026 |           |
| 8    | SEALS, NATHAN      | \$5,800   | \$69,600  | 2026 |           |
| 10   | THARAKAN, THUSHARA | \$5,600   | \$67,200  | 2024 |           |

Male avg: \$6,520/month (\$78,240/year) | Female avg: \$6,397/month (\$76,768/year)

■ JONES, TERRANCE earns \$9,200/month — \$2,200 above the next highest male in this group, and more than the female pay ceiling of \$8,400/month. He also out-earns 4 male RC Seniors despite holding a lower

classification. Excluding Jones, the male average drops to ~\$6,178/month — below the female average.

3C — Rehabilitation Counselor TRAINEE (Lowest Classification) — 11 Males

| Rank | Name            | Pay/Month | Pay/Year | Note                     |
|------|-----------------|-----------|----------|--------------------------|
| 1    | ABRAHAM, JOSE   | \$7,700   | \$92,400 | ■ Near Senior range      |
| 2    | DEANY, DENNIS   | \$7,200   | \$86,400 | ■ Equals RC Senior DAVIS |
| 3    | LANE, CHARLES   | \$6,300   | \$75,600 |                          |
| 4    | LIMON, FERNANDO | \$6,100   | \$73,200 |                          |
| 5    | SIMPSON, BRENT  | \$5,600   | \$67,200 |                          |
| 6    | BURRESS, ROBERT | \$5,400   | \$64,800 |                          |
| 7    | MOORE, JOSIAH   | \$5,100   | \$61,200 |                          |
| 7    | NETHERLY, JOHN  | \$5,100   | \$61,200 |                          |
| 7    | STEARNS, MICAH  | \$5,100   | \$61,200 |                          |
| 10   | HURN, DAVID     | \$5,000   | \$60,000 |                          |
| 10   | PATEL, NISHIL   | \$5,000   | \$60,000 |                          |

Male avg: \$5,782/month (\$69,382/year) | Female avg: \$5,704/month (\$68,453/year)

Section 4: Cross-Classification Pay Compression Anomalies

The following male employees in **lower-classified positions** earn salaries that meet or exceed what some RC Seniors earn — a direct pay compression and equity issue:

| Employee        | Their Title (Lower Classification) | Pay/Month | Pay/Year  | Issue                              |
|-----------------|------------------------------------|-----------|-----------|------------------------------------|
| JONES, TERRANCE | RC Mid-Level                       | \$9,200   | \$110,400 | Earns MORE than 4 male RC Seniors  |
| ABRAHAM, JOSE   | RC Trainee                         | \$7,700   | \$92,400  | Exceeds RC Senior DAVIS (\$86,400) |
| DEANY, DENNIS   | RC Trainee                         | \$7,200   | \$86,400  | Equals RC Senior DAVIS (\$86,400)  |

Section 5: Key Findings & Conclusions

1. Males earn more in every job category.

The pay gap ranges from 1.4% (Trainee) to 6.1% (Senior). The Senior-level gap represents \$6,090/year in absolute terms.

## 2. The gap is widest at the top.

The RC Senior group — the highest classification — shows the largest male pay advantage. Males cluster at \$9,200–\$9,600/month while many female Seniors occupy lower positions within the same pay band.

## 3. Workforce is 83% female, yet males earn more.

Despite being a clear minority (17% of the workforce), males consistently earn above-average salaries across all three classification levels.

## 4. Pay compression exists across classification levels.

Two male Trainees and one male mid-level Counselor earn at or above what some RC Seniors earn — suggesting the pay band structure is not functioning as intended, or individual step placements have not been regularly reviewed.

## 5. JONES, TERRANCE (RC mid-level, \$9,200/month) is the most notable anomaly.

His salary exceeds the female pay ceiling for his entire classification and surpasses several employees in the higher-classified Senior role. This warrants direct HR review.

## 6. The highest-paid Trainee overall is female

(REESE, DEBRA, \$7,800/month), demonstrating that the disparity is not universal at the individual level — but the averages consistently favor males at every tier.

## Methodology Notes

---

- *Records analyzed: 200 unique employees (deduplicated by Employee ID, most recent year retained).*
- *Gender determination: No gender field exists in the dataset; gender was inferred from first names using standard name-gender classification. Ambiguous names defaulted to the statistically predominant gender.*
- *Pay field: Rate\_of\_Pay interpreted as monthly salary (consistent with Illinois state pay scales: ~\$60K–\$115K annually for these classifications).*
- *Trainee records: All carry Issue\_Year '0,' indicating a different data extraction period (possibly a career-history view).*
- *Data years in dataset: 2024, 2025, 2026 (plus legacy '0' for Trainees).*
